Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.THIS little book appears opportunely in view of the danger that the disease of which it treats has already established itself on a permanent footing in this country. Captain Pallin appears to have had considerable experience in connection with the disease during his period of service in India and China, and can therefore speak at first hand regarding the clinical aspects of the affection. He was also provided with a number of excellent photographs showing the cutaneous and other lesions, and these have been reproduced to illustrate the book. But the author has naturally desired to render his account of the disease as complete as possible, and has therefore drawn freely from the previously published literature on the subject. In this connection he acknowledges his indebtedness to Tokishige's monograph, and to the article on epizootic lymphangitis in the text-book of Nocard Leclainche. Candour compels us to say that the author appears to have adhered with remarkable fidelity to the account of the disease which is given in these two articles, and the result is likely to be a little disappointing to those who are already acquainted with these sources of information on the subject. On the subject of staining the author develops more than his usual originality, and gives quite an embarrassing choice of methods by which the cryptococcus may be stained. We fear that Captain Pallin has not made a serious study of the relative merits of the stains mentioned, for he appears to accord the preference to the Gram-Nicoll and Gram-Weigert-Kuhne methods, neither of which is equal to the method of Claudius in simplicity and effectiveness. It is a little unfortunate also that, in mentioning...
