EXERCISES IN LOGIC: DESIGNED FOR THE USE OF STUDENTS IN COLLEGES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Exercises in Logic: Designed for the Use of Students in Colleges The following little work makes no pretensions to any other originality than that of plan. It has been prepared under the conviction, elsewhere expressed by the author, that a practical skill in logic can only be attained by a practical acquaintance with its rules, and that the means of a more progressive application of these, than has yet been furnished in works on the subject, was still a desideratum. Of the examples given under the various exercises, the author has supplied a considerable proportion himself; but for, perhaps, the majority he is indebted to preceding writers. His obligations to Archbishop Whateley in particular, in this, as well as in other respects, are of an extent to claim special acknowledgment.
