

## A Treatise on the Diseases of the Heart and Great Vessels (Classic Reprint)

Filesize: 2.58 MB

### **Reviews**

*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Treatise on the Diseases of the Heart and Great Vessels It has, I believe, been almost universally admitted, both in this country and abroad, that the experiments detailed at pages 21 and 30 fix the first sound of the heart on the contraction of the ventricles, and the second, on their dilatation. The experiments did not demonstrate the immediate causes of the sounds, and my inferential explanations of them (at page 48) were soon doubted. Some thought that the closure of the valves was the cause; and I readily cede the merit of originality in this supposition to M. Rouanet, Mr. Bryan, M. Bouillaud, Mr. Carlile, c.: others, as Dr. Williams, ascribed the first sound to the muscular sound, on which I have (at page 47) given an opinion essentially substantiated by the subjoined experiments. If my explanations were erroneous, it was my duty to correct them; I therefore commenced in 1832 a new series of hospital researches on the living and dead subject, and soon satisfied myself that the first sound was loudest over the middle of the ventricles, and the second, over the sigmoid valves, and thence for a few inches upwards; also, that when a healthy subject was faint, the first sound lost its prolongation, and became short and smart like the second; whence I inferred that, in its natural state, it might have a compound cause, viz. the closure of the valves, and the motion of the blood, or the bruit musculaire. The presumptions thus offered, that the valves were concerned in the production of the sounds, required corroboration by experimental and pathological evidence. Not having succeeded in satisfactorily imitating...
